# Problem Statement

People need a modern
way to showcase skills
and projects.

Traditional resumes don't
highlight creativity well.

A personal portfolio website
solves this problem.

# Project Overview

01

**A responsive portfolio website.**

02

**Contains sections: Home, About, Projects, Contact.**

03

**Includes modern design, layout, and interactivity.**

# End Users

Students who want to show their projects.

Job seekers applying for frontend/web developer roles.

Professionals who want a digital profile.

# Tools and Technologies

HTML – Structure

CSS – Styling and Layout

JavaScript – Interactivity

GitHub – Version control & hosting

# Portfolio Design & Layout

**01** **Sticky navigation bar (Home, About, Projects, Contact).**

**02** **Profile image below header.**

**03** **Clean sections with modern UI.**

**04** **Responsive design for all devices.**

# Features and Functionality

Interactive hover effects on projects.

Responsive grid layout.

Contact form with alert confirmation.

Smooth and user-friendly navigation.

# Projects Included

**1**

**2**

**3**

Portfolio Website – Personal profile.

Todo App – Interactive task manager.

Landing Page – Responsive modern UI.

# Results and Screenshots

01     **Successfully built a working personal portfolio.**

02     **Displays profile, projects, and contact form.**

03     **Screenshots: Home, About, Projects, Contact pages.**

# Conclusion

Portfolio website helps showcase skills effectively.

Acts as an online resume + identity.

Easy to expand with more projects in the future.
